

How to access the notebooks

Option 1: Google Colab (Recommended)

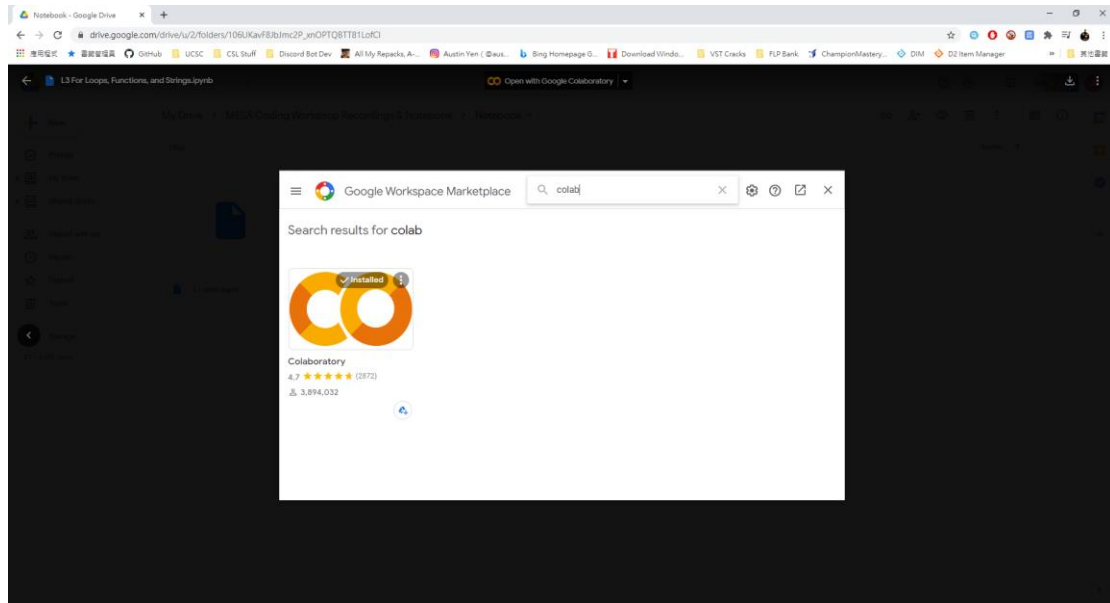

Open the notebook in the notebook folder, if you already have Google colab, the option should show

If you haven't installed Google Colab, click on the triangle > connect more apps

Search for colab and install!

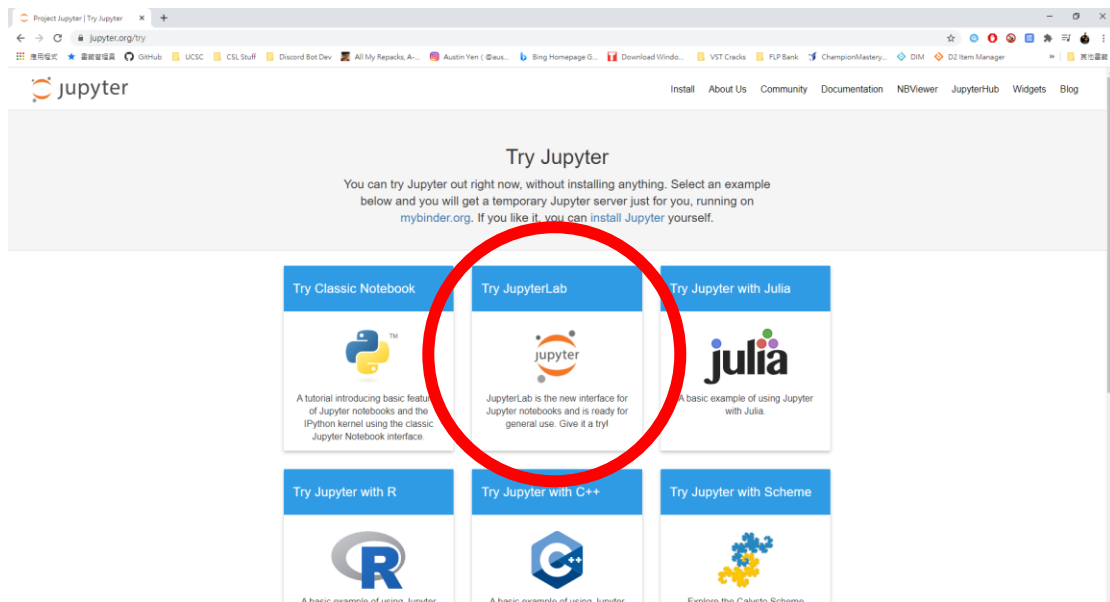

Option 2: JupyterLab

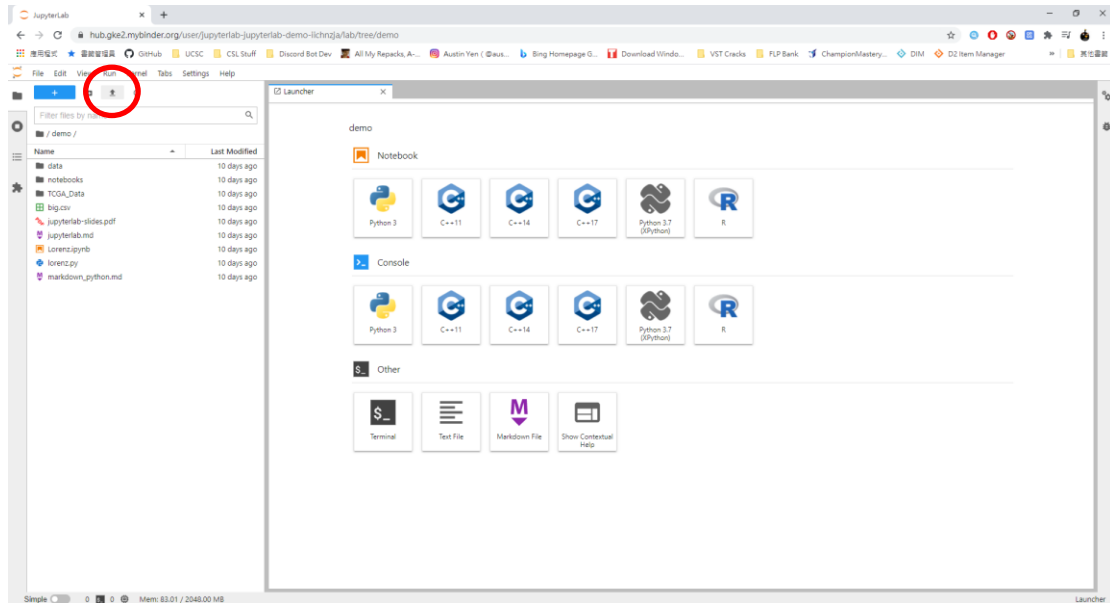

This option is for those who aren't able to install colab because they are on the school issued chromebooks.

Go to jupyter.org/try

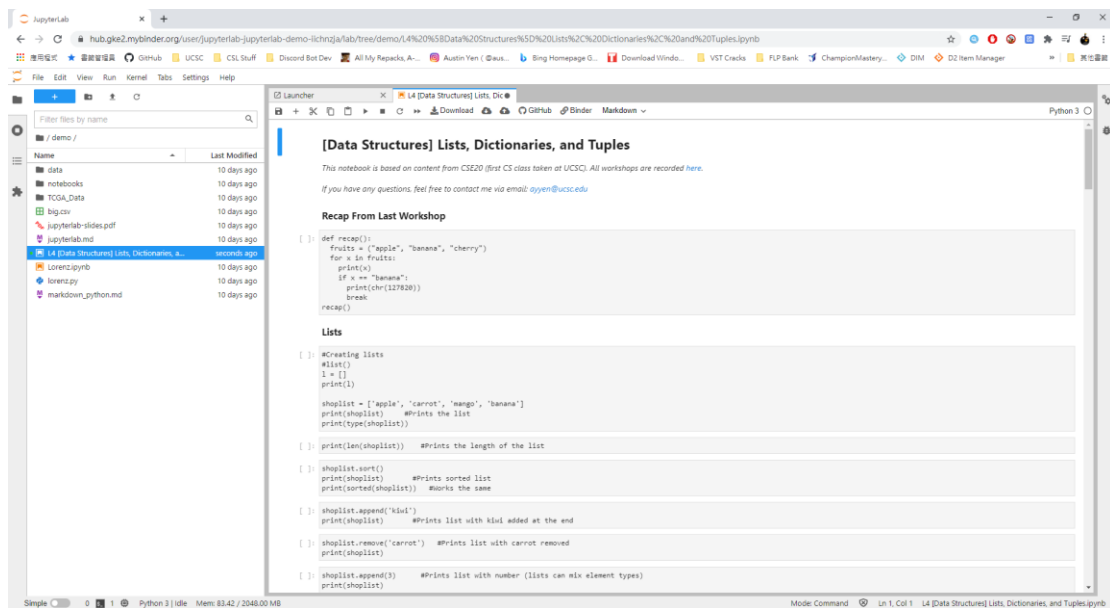

Click on "Try JupyterLab"

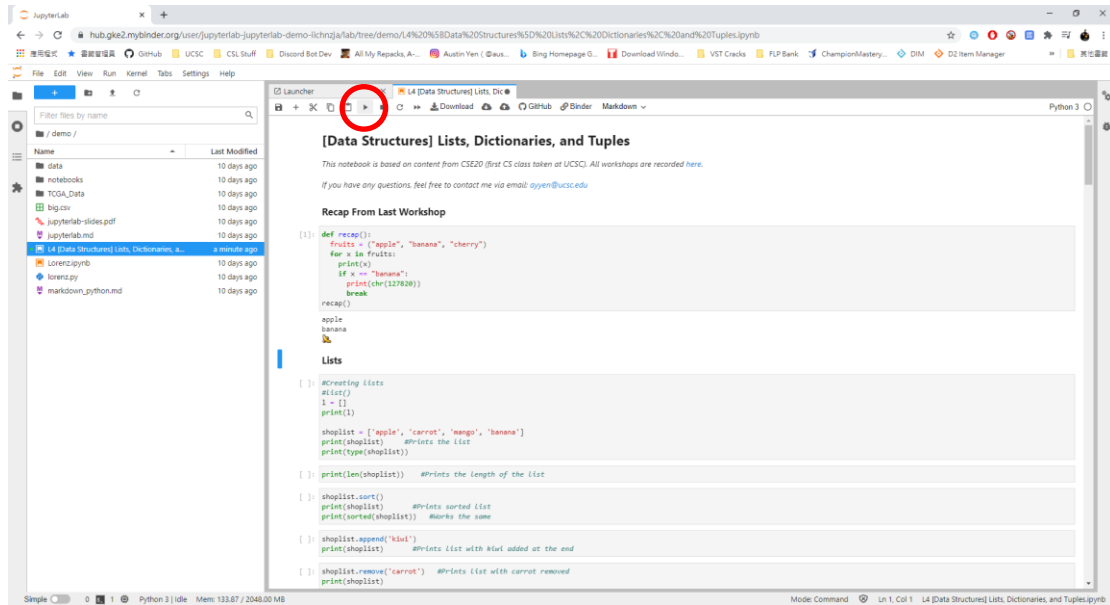

Click on the upload icon and select the .pynb file

Double click on the file you want to open on the side bar

To run the block of code, just click on the “Play” icon

Download the notebooks here!
